

**Happy New Year**

*Without a single lie  
Christmas has just flown by  
Now to be greeted with a cheer  
It's reached the New Year*

*To bring to your life a good solution  
You now need to make a New Years resolution  
And instead of once more be a regretter  
This year things could get much better*

*In January you sometimes need to get much bolder  
With it getting a little bit colder  
Though in your heated-up car  
You can still travel near and far*

*Each pub and restaurant now go a little bit dead  
With a wait for your next wages a long month ahead  
Because without a single doubt  
Through Christmas, and the early year sales, of money we all run out*

*In the shops having made an enquiry  
Lots of people get a calender and diary  
And intending to do what they can  
For the year ahead make a positive plan*
